

## Why is my Caller ID Table Dial Feature not working?

This may happen if your system programming was set up prior to having to dial 1 for 630 area code calling. Follow these instructions with the handset on-hook or hung up:

1. Press **FEATURE # \***
2. Enter your password (eight # signs)  
**# # # # # # # #**
3. Press the soft key below the LCD display under **SHOW**
4. Enter **03 26** then press the soft key under **SAVE**
5. The display should read  
**INTER. PREFIX**
6. Press the soft key under **SHOW**
7. The display should read  
**1**  
*- If it does **not**, press the soft key under **CHG**, enter **1**, then press the soft key under **SAVE***
8. Press the soft key under **NEXT** 3 times or until the display shows  
**LOCAL AREA CODE**
9. Press the soft key under **SHOW**. Display should read  
**AREA COD 1: NULL**  
*- If it does **not**, press the soft key under **CHG** then the soft key under **SAVE***
10. Press the **SPEAKER** button twice to exit programming
